PROFESSIONAL EXPERIENCE

Veracious Vision (<https://www.veraciousvision.com>)

February 2024–Present

CTO

- Building the Chatbot lie detector in the Gesell room with AI.
- Leading the tech team and assuming the role of CTO for Veracious Vision, which is a tool for making interviews.
- Worked on developing the rooms, hardware, the AI and the website for the distribution of the solution.
- Expertise in development with multiple tech hardware, software and designed a new Gesell room standard with lights, unidirectional glass, stereoscopic camera, infrared camera, full HD camera, and multiple other features that allow the Gesell room to be adapted to any type of interview as follow-up interviews, pre-employment and specific case interviews.

Vetado (<https://vetado.netlify.app/>)

March 2023–Present

CEO

- Successfully leading the C-levels: COO, CTO, CMO, and CFO, and achieving response times from each of them above expectations.
- Achieved response times from each of them above expectations, with an emphasis on technology.
- Created a high-quality product in record time.

Urithibase

March 2023–Present

CEO

- Working hand in hand with the CTO and collaborating with the implementation of the cryptocurrency layer and Smart Contracts.
- Reduced the deadlines, development and deployment time by implementing to-do list tools into the core of project management and KPI and OKR metrics tools in all the teams.

Sahihi **March 2023–Present**
CEO

- Created all the schematics and PCBs of the electronic circuits, sending them to production in China.
- Performed the integrations with Raspberry Pi and the cameras used as input (eyes) of the system.

Codeando **Jun 2022–Present**
CEO

- Collaborated with the establishment of this startup and carried out operations with the COO and technology with the CTO, by reducing execution, development and operations times 10x less.

Kutafuna **Jun 2022–Present**
CEO

- Led the creation of a computer vision system that counts product quantity, process adherence, and detects product errors.
- Improved quality control and production time.

SmileHelps (<https://getsmilehelps.com/>) **Jan 2014–Present**
CEO

- Effectively executing and creating the structure and working on the constitution of Smile as a legal company in Delaware, having to choose the type of vehicle (Ccorp, LLC).
- Worked with the legal team to take care of intellectual property, creating documents such as NDAs (non-disclosure agreements) and patents.

El Lado del Bien (elladodelbien.com) **Oct 2019–Present**
